Mobile: +2348074210369

Lagos, Nigeria

Experience

Loveworld Publishing

Backend Engineer & Mobile Lead (Full-time)

Lagos, Nigeria

Oct. 2025 – Present

- **System Infrastructure Solution:** Reduced deployment time from 72 hours to 50 minutes by building tools to automate deployment processes using GitHub Actions and Amazon S3.
- **Client Delivery:** Delivered 5+ projects in mobile/web apps, UI/UX design, and AI integrations.
- **Backend Services:** Developed a microservices-based architecture with Python, Docker, Fast Api, MySQL/PostgreSQL, for an end-to-end media production workflow that serves over 100 users hourly.

Polaris Bank

Mobile Developer (Contract)

Lagos, Nigeria

Oct. 2024 – Dec. 2024

- **Development:** Integrated APIs for these features: Target Savings and Safe Lock, and handled the state across features using Provider and Dio.
- **Collaboration:** Collaborated with the QA team to identify and fix bugs in the application, increasing the responsiveness of the application by 100%

Scelloo

Senior Mobile Engineer (Full-time)

Lagos, Nigeria

Apr. 2023 – Mar. 2026

- **Development:** Developed cross-platform applications, improving UI/UX and client satisfaction by 82%.
- **AI & System Integration:** Integrated AI-driven features, including chatbots and ML models. Implemented real-time communication using WebSockets to handle dynamic data updates, such as live shipment tracking and trip status updates.
- **Team Leadership:** Led a development team and integrated third-party APIs, Google services, and payment gateways to enhance application functionality and manage state using Flutter Blocs, Provider, thereby reducing development cycles by 15%.

Projects

- **Vulte:** With over 1 million downloads, I implemented the Safe Lock and Target Savings features, enabling users to earn 10% interest per annum on savings and set personalized savings goals with a minimum deposit of \$10.
- **MuleEx:** Developed a Platform that offers streamlined transportation and delivery processes for enterprises. Implemented in-app alerts, payment gateways, web socket to enable live updates of shipment and trip details, aiding communication between the app and backend services
- **MediaFlow:** Designed a role-based platform that helps production teams submit content, review it collaboratively, approve it for broadcast, and track performance against goals. Thus, increasing productivity, transparency, and performance by 89%
- **Rhapsody TV:** Designed and developed the cross-platform mobile version of Rhapsody TV for Rhapsody of Realities.
- **Rhapsody Media Network:** Developed a portal to unify creatives, designers, video editors, writers, and media professionals into one structured global system focused on excellence, consistency, and impact.

Technical Skills

- **Frontend:** Figma, HTML, Node.js
- **Backend:** Dart, Python, PHP, MySQL, PostgreSQL, Firebase, Docker
- **Mobile:** Flutter, Dart, React Native
- **AI:** AI Tools, AI Integration, Prompt Engineering
- **Tools:** Git, Figma, Amazon S3, Cloudflare, Cursor

Certifications

- Bsc. Physics and Astronomy, Masters in Data Computing, Flutter Advanced Course – Clean Architecture with MVVM, Flutter Bloc Essential Course
